

The LRPC would like to thank all of our property owners for responding to our February survey. The response rate exceeded our expectations with 72% of our recipients responding. We received many useful and insightful comments that we can use in our planning.

The survey was sent to 274 recipients either by email or by the USPS and we received 192 responses which indicates a great interest in our community.

The demographics of the responses corresponded favorably with the demographics of our community, which includes both full time and part time residents.

We are enthused about the interest in the community and want to encourage your continued involvement and participation in the planning and execution of our long range projects. Please visit the website often to stay

current with the activities of the community and stay up to date with our progress.

We continue to solicit your comments, questions and input. Should you wish to contact me regarding the LRPC, please do so (wstevens@nctv.com) or click on “Contact Us” on the website.

Thank you,
Bill Stevens,
Chairman, Blue Lake POA Long Range
Planning Committee
